Section 106 of the National Historic Preservation Act

Sustainable Energy UTBB Board/Staff Workshop Saturday November 4, 2023 Bristol Bay Campus Monty Rogers www.culturalalaska.com

Purpose of Section 106

Section 106 of the National Historic Preservation Act requires federal agencies to:

- consider the effects on historic properties of projects they carry out, assist, fund, permit, license, or approve throughout the country.
- If a federal or federally-assisted project has the potential to affect historic properties, a Section 106 review will take place.

Eligibility = Significance + Integrity

36 CFR § 60.4 Criteria for Evaluation (Significance)

A. Event

Associated with events that have made a significant contribution to the broad patterns of our history.

B. Person

Associated with the lives of significant persons in our past.

C. Design/Construction

Embody the distinctive characteristics of a type, period, or method of construction, or that represent the work of a master, or that possess high artistic values, or that represent a significant and distinguishable entity whose components may lack individual distinction.

D. Information Potential

Has yielded or may be likely to yield information important in history or prehistory.

Aspects of Integrity

Measure Change from Present Condition

36 CFR § 800.5(a)(1)
Criteria of Adverse Effect

An ADVERSE EFFECT is found when an undertaking may alter, directly or indirectly, any of the characteristics of a historic property that qualify the property for inclusion in the National Register in a manner that would diminish the property's integrity.

ADVERSE EFFECTS may include reasonably foreseeable effects caused by the undertaking that may occur later in time, be farther removed in distance, or be cumulative.

36 CFR § 800.5(a)(2) Examples of Adverse Effects

Destruction or Damage of all or part of historic property
Alteration not consistent with SOI Standards
Removal from its Location
Change in Use or Setting
Addition of Visual, Audible, or Atmospheric Elements out of Character
Neglect (when not an expected characteristic)
Transfer, Sale, or Lease out of Federal Control

Powerlines and Potential Effects

- 153 miles of Transmission Lines
- One tower every 400 feet
- route would be used to construct the transmission line, then serve as a land-based right of way for the Project site
